Next General Meeting! Wednesday, November 16 at 7PM Topic: Mayor Bowser visit & Vote on GU Campus Plan Location: 4500 Q Street NW in the Hardy Rec Center Need a ride? Contact Bob Avery

Mayor Bowser Visits the FCCA!

Mayor Bowser will highlight the November 16th FCCA membership meeting (7 PM Hardy Rec Center, 45th and Q). This is our opportunity to press the issues that are most important to us with the District's mayor. All residents are encouraged to either bring their questions or comments to the meeting to present them personally or to send them in advance to FCCA president Bob Avery (ravery@ starpower.net). We encourage a large turnout at the meeting to show that we care about the issues. In addition to the mayor's visit. Two items of business will also be considered at the meeting. The November meeting is the annual election meeting for the FCCA Board of Directors. Directors serve a one year term, must be a dues-paying member of the FCCA and live within the FCCA geographic area. The Board meets once a month (in the evening, generally the 3rd or 4th Tuesday) and each Director generally assumes responsibility for an area of interest--such as police liaison, school liaison, traffic concerns, FCCA Foxhall News, development-but some members serve "at large." Members are not required to attend all Board

meetings but it is hoped that they attend as many as possible. The Board as a whole sets the agenda for the membership meetings and acts in lieu of the membership when issues arise that require immediate action. The Board also elects the Association officers (president, secretary and treasurer). Because of this it is important that the Board membership be as representative of the entire FCCA community as possible. At this point in time at least two members of the current board are stepping down and one new person has agreed to stand for election. We would welcome more newcomers! If being on the Board interests you, please contact Bob Avery for more information or just show up at the November 16th meeting.

Finally, the membership will also be asked to take a position on the Georgetown University 20 year campus plan. The University presented its proposal at the June FCCA meeting and Medstar presented its proposal for a new hospital on the Georgetown campus at our January meeting. At this point in time we are proposing to only vote on the overall campus plan in advance of the University's presentation to the Zoning Commission on December 1st. The membership will consider the hospital proposal at our January meeting. A copy of the campus plan we will consider can be found at: https://campusplan.georgetown.edu/

New Exhibit in Park Honors Rachel Carson

A new interactive feature honoring environmentalist Rachel Carson debuted last week in Glover Archbold Park, just south of Reservoir Road NW. The informational exhibit is the result of years of local efforts to formally link Carson's legacy to Glover Archbold Park, which she was known to frequent for bird-watching and other nature observations. The pioneering conservationist and biologist is recognized for kickstarting the global environmentalist movement with her 1962 book "Silent Spring," which warned of the dangers of pesticides. A few years ago, local advocates won the support of D.C. Del. Eleanor Holmes Norton in trying to rename a trail in Glover Archbold Park after Carson.

"When the National Park Service (NPS) and other officials could not be convinced, Norton worked with NPS on a compromise and got the agency to install the interactive feature honoring Carson," according to a release from the congresswoman's office. In the release, Norton credits community members for gathering pictures and other resources to "get this long-overdue recognition of Rachel Carson's pathbreaking environmental work installed where it belongs." The exhibit's unveiling on Sept. 27 coincided with the 54th anniversary of the publication of "Silent Spring," according to the National Park Service. See photos on Page 3.

Inside the USS Arizona

Be sure to watch "Pearl Harbor: Into the Arizona" on PBS, Wednesday, Nov. 23 at 9:00 pm. This documentary was written, directed and produced by Carsten Oblaender. Carsten lives in Foxhall Village and is the co-founder and CEO of Story House Productions. Throughout the month, PBS is honoring America's Veterans with several programs. Using state-of-the-art imaging technology, Carsten's

Overall, crime in our area is up 16%. There have been eighteen crimes in the last thirty days, many clustered around Sherier Place, NW. A man entered a guesthouse on Sherier Pl. and stated that he had a gun. Additionally, thefts from autos have occurred. A CCTV camera has

been placed in that area, along with additional officers who have been assigned. In our immediate neighborhood, on 47th Place, an unidentified man was seen walking down the steps of a woman's house with someone unknown inside the house. The door to that house had been unlocked. Officer McElwee stressed that residents must keep their house doors locked at all times, even if one is only going to the mailbox or working in the yard. Additionally, it is best to keep car doors locked at all times to prevent theft from autos. Utilize your house alarm, if you have one. The audience expressed its gratitude to Officer McElwee for all of his efforts to keep us safe.

Representatives from the Department of Public Works (DPW), Mr. May and Ms. Duffy, spoke to the group. DPW is responsible for public spaces, streets and alleys, trash removal, and fleet trucks. The information shared focused on fall leaf pickup. A schedule will be forthcoming. Mr. May said that the city prefers that leaves be placed in paper bags that can be purchased at retail as they are more easily biodegradable than plastic bags. Placement of the bags in the tree box would facilitate pickup. Mr. May took note of concerns from members present.

Sally Strain presented updates on the Georgetown Non-Motorized Boathouse Zone along the Georgetown waterfront. The plan is calling for several new boathouses to be built between 34th St. and an area upriver approximately 1,100 ft. into the C&O Canal National Historical Park. The National Park Service (NPS) has produced an Environmental Assessment (EA). The result was felt to be a win for boaters and for the Park. There will be no land swaps and no private development in the C & O Canal Park. Deadline for submitting comments is 09/30/2016. The full plan can be viewed at "www.savethecanal.org".

Peter Van Allen and Dominic Patella reported on the airplane noise issue. In spring 2015, the FAA unilaterally moved the historic northern flight path more than a half-mile east over our neighborhood without conducting an environmental assessment or coordinating with affected neighborhoods. This new LAZIR flight path has resulted in airplanes flying directly over schools and homes at very low, dangerous altitudes. There has been a 10% increase in the number of flights into and from DCA by large jets. Airline departures are permitted as early as 5 am and after 12 am. Seven local community groups, as well as Georgetown University, have retained counsel and filed a Petition for Review of the new flight path with the DC Federal Circuit Court of Appeals. The DC government has pledged \$300,000 for an Environmental Assessment (noise study). GU has also helped with funding. The Petition has cleared the first hurdle. Peter and Dominic suggested using the website www.dcfairskies.org for history and updates. They also said to flood the Metropolitan Washington Airports Authority (MWAA) and Mary Cheh's office (DC Council, Ward 3) facades or primary elevations (some houses also have with complaints.

Interested in joining the Palisades Village **Board**?

Sara Paulson

Palisades Village, our neighborhood organization devoted to helping seniors live and thrive in their own homes, is looking for new board members. We are in need of board members from the Foxhall area, Wesley Heights and Kent.

Depending on their interests, Board members help with • event planning, communication and public relations, mem- one type of slate on the Boss and Phelps homes and anothbership, volunteer recruitment, member services and fund- er on the Waverly Taylor homes. raising. The Board normally meets on the third Thursday of • the month. Arne Paulson, a long-time Board member, would street view in historic districts) be happy to talk to you about the benefits of serving. For • more information, please feel free to contact him at arne. • paulson@gmail.com.

In addition, we urge those who are thinking of joining Palisades Village to look at the range of services the organization provides and its many social events on the website: www. palisadesvillage.org, or by contacting the office: info@palisadesvillage.org.

New Foxhall Village Historic District DC HPO Liaison

Paul DonVito, Chairman, FCCA Historic Preservation Committee

The Foxhall Village Historic District extends a warm welcome to our new DC Office of Historic Preservation neighborhood liaison, Gabriela Gutowski. Hailing from the New York City Landmarks Preservation Commission, Gabriela brings a wealth of experience from a city that has more historic buildings than any other in the US. She will have some big shoes to fill replacing Frances McMillen, who was our liaison for the past three years, but no doubt Foxhall Village will beat the rough and tumble of New York City!

For residents of our historic district, if you have plans for exterior changes to your home beyond simple regular maintenance please contact Gabriela (at gabriela.gutowski@dc.gov or 202-442-8839.) She can advise you as to whether or not you will need a permit, how the permitting process works as well as advise you about what alterations will most likely be approved. Additionally please feel to contact me (pauldonvito@rcn.com or 202-375-4662) if you have either specific questions about planned projects and what has typically been approved or just basic questions about dos and don'ts.

As a reminder, what DCHPO and the FCCA Historic Preservation Committee cares about most are changes to front

prominent side elevations facing alleys or streets) as well as changes to roofs (especially slate replacement) and permanent landscaping changes (retaining walls, walkways, porches, etc.) Here is a quick list of alterations that need permits and staff review. Please note that other items that may come up that are not on this list - so always best to call first:

- **Replacement windows**
- Replacement front doors
- Basement window expansion

Slate roof replacement – Please note that there is

Solar panels (they must be totally hidden from

Retaining walls (new or replacements)

Front walk or step replacement or covering or new railings

Any proposed alterations to the details (chimney pots / bas reliefs / decorative brick and stone work, etc.) These elements are a large part of what makes our HD special

And of course, additions (even when not visible from the street.)

In short, almost any permanent change that impacts what can be seen from the street as well as a few that don't reguire permits and staff review. For more details please refer to the Foxhall Village Design Guidelines, which is available on DCHPO's website at: http://planning.dc.gov/sites/default/files/dc/sites/op/publication/attachments/Foxhall_Village_Guidelines_1.pdf

How Green Is Our Alley!

Frank Staroba

This month is the first anniversary of the Q Street Green Alley, so it's time to ask: "How green is our green alley? How well does it capture stormwater and how well does it serve our neighborhood?"

The green alley runs from Q Place to Q Street, ending just opposite the tennis court at Hardy Park. The alley was designed to serve two purposes: (1) to mitigate the harmful effects of the stormwater that surges through the alley in heavy rains, carrying pollutants and debris from the watershed that drains into it; and (2) to enhance its use as an ADA accessible pedestrian walkway and greenway.

Many of you will remember the condition of the alley before the green alley was installed. The asphalt had been eroded

November 2016

FCCA Foxhall News

gate dropped by one foot.

Now the stormwater is completely absorbed into the reseralong the side. There is no runoff or delta on Q Street. The water infiltrates into and recharges the ground water and it supports the plant life in the planters and along the edges River and the Chesapeake Bay.

Scores of people of all ages walk through the alley daily, enjoying a pleasant and safe pedestrian park on their way to schools,

bus stops, soccer fields, tennis courts, and other amenities of Hardy Park and Recreation Center. It has become a valued addition to our neighborhood.

by. You'll find an interpretive sign that explains how the alley functions to mitigate stormwater runoff. You'll see the many neighbors who use the walkway, and you'll enjoy a lovely green space.

portation, which is responsible for maintenance of the alley and purpose. , hardscape, and the Friends of Hardy, who are responsible For now, St. Patrick's will hold onto the existing MacArthur for maintaining the plantings, and keeping the alley clean and free of weeds. Neighborhood volunteers join together every few weeks for just an hour to do the clean-up, and MaryRollefson@starpower.net. It's easy, it's fun, and it's our tivities. green alley. Let's work together to keep it green!
